

Since 1979 Alex Sanders and Derek Taylor worked in a magical partnership in which Alex's already prodigious powers as a magician and medium continued to evolve until his death on the 30th April 1988.

Alex established the traditional work of Wicca into the oldest coven in the world - the Ordine della Luna (in Constantinople), which was 500 years old in 328 AD, when the the patronage changed, due to Christian conversions, from Diana and Apollo to the Virgin Mary and Jesus.

Alex Sanders was made the Grand Prior for England and Wales by Prince Paleogus, the Grand Master of the Order. Derek Taylor was initiated into the Ordine della Luna and with a charter from the Ordine della Luna has established Ordine della Nova to promote a progressive concept of Wicca into the New Age including the study and practise of communications with Extraterrestials.
