O Great Goddess of Love and Beauty
Descend through Saturn black.
Descend through shades of Azure Blue,
Through Mars of fiery red
Unto the sphere of Golden Rays
Through the Green of Venus
Forth to the Rainbow Glory
Crystalising in the Silver Rays
Unto the Kingdom where men and gods do meet.

I, who am the Goddess of Love
Containeth within me the Wisdom and understanding.
If thou canst find within thee the desire for learning, I will show thee the path of truth unto me.
Glory, Victory, Beauty, Strength, Mercy and Joy, Understanding and Wisdom are all manifestations of me.
If this is what thou desirest, call unto thy soul and worship me.

Here we dance the circle round
Round and Round
Round and Round
Here we dance the circle round
With the Lord and Lady.

Lift your feet up from the ground
Round and Round
Round and Round
Lift your feet up from the ground
Round and Round
Round and Round
For the Lord and Lady.
