I must tell you about my dream
last night - it was strange -
I saw you and a big group of witches
in a big wood filled with some trees
near by and it looked like a Sabat
or something has going on and
I has being Asked to come into the
group to become one of you,
to be made a high Ranking witch
like a prince or Something like that
What a weird dream - to have
But very interesting I cant explain
the Rest - And when I woke up
Next day I felt Strange as it
Something has going to happen etc
