(2)

I must tell you about my dream
last night - it was strange -

I saw you and a big croup of witches
in a big wood filled with some trees
near by and it looked like a Sabot
or something was going on and

I was being asked to come into the
croup to become one of you,

to be made a high Ranking Witch
like a prince or something like that
what a weird dream - to have

But very interesting I can't explain
the rest - And when I woke up

Next day I felt strange as if

Something was going to happen etc

P.T.N.O.

Well some thing did happen - I lost
 my temper at work and got the sack
 But I said I was sorry so they gave
 me back my job -

After this had happened I got a threat
 by a girl at work who said she was
 going to get a couple of blokes
 to break my nose & do me over -
 Well she got the sack for making
 the threat at me - ~~so~~ so that's one blessing
 anyway -

But this dream I think gave me
 the idea that some thing drastic was
 about to happen the next -

There was an evil influence here P.T.N.O.
 last night me be that made me dream - ? =
