Greetings, Derek, and a hearty Salem "Blessed Be!"

Do what thou wilt shall be the whole of the law.

We've thought about you many times over the past year, especially as our work has progressed on the tapes and transcripts you and Alex have been sending us. Running a magickal supply company company seems to have become a majorly full-time job. If this is part of the Great Work, they've definitely got us working night and day!

A lot has happened to us since we visited with you last summer. We've been processing bit by bit how to produce and present Alex's material and now it looks like we are close to better understanding him, and you, and our part in the work.

Please accept this gold Ankh pendant with our best wishes for you. It has been set aside for you for many months and we hope it brings you great blessings. May the Horns of Isis protect you. So Mote It Be.

We have enclosed with this letter a number of things for you to peruse and consider. Among them are xeroxed copies of the graphics in progress for the boxed sets of cassette tapes and the transcripts we will be distributing, beginning in a few weeks. These will contain copies of " Exposition of the Wicca " and " Rites and Ceremonies ". After much contemplation, we decided several months back to hold " Pupil Know Thyself " in reserve until a later date, because it seems to us to be very personal in nature. Our very close friend, Abraxaas, drew the Rose Ankh and the " Lazy Unicorn " for cover art. The images have thus far been in resonance with the project, Alex has really liked them, and we hope you also find them satisfactory. Abraxaas, who has grown up with the Craft, is very pleased to be helping with this project, and we feel feel that she is a very competent and talented artist.

Your own facilitation and transcription of Alex's work continues to be of major and immeasurable importance to this project, as we reach out and network with Witches and the New Age movement across the United States. We deeply appreciate your efforts and thank you. We, too, are dedicated to the Work. We are calling this tape series, " Witchcraft as an Initiatory Path ", and we have written a short preface to accompany the two transcripts for " Exposition of the Wicca " and " Rites and Ceremonies ". In the preface we have quoted from you briefly, and we hope this meets with your approval.

1737B

Many people are talking seriously these days about space beings. We went to a lecture a month or so ago given by a woman who is connected to major U.F.O. research and communication channels. She spoke about visitors from the Pleiades she has been personally "channeling", and also about research and documentation regarding the contacts these beings have made with the Pentagon in the 1950's, and other attempts at global communication, that have all been covered up, etc. Her talk was very convincing and informative. However, our oracles continue to indicate to us that we are not to become actively involved in this issue at this time. We are sending along her name and address for you to contact her and/or her associates if it be your will:

Aleuti Francesca - Doctor of Spiritual Science
Solar Light Retreat
7700 Avenue of the Sun
White City, Oregon 97503
U.S.A.

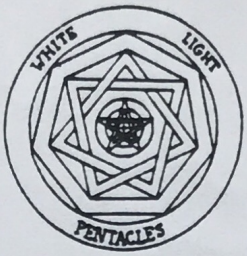
phone #: 503-855-1956

She is not closely associated with us or our friends, so she probably won't remember us if you mention us by name, so perhaps you can just say that some people who attended her lecture in Boston gave you her address.

We have also enclosed some xeroxed copies of information on the "Harmonic Convergence" that will commence at sunrise August 16th and continue through August 24th, and on through the next 25 years. These dates are prophesied as pivotal points for the incoming tides of galactic energy, or so we have been told. Many individuals and groups all over the United States and elsewhere in the world are meditating, concentrating, and resonating in this light. We are heading for a sacred site in our area, Mystery Hill, for sunrise on the 16th with some other witches and friends. This is in Salem, New Hampshire. We are all hoping to turn the wheel toward willed evolution and the fortunate beginning of a " New Cycle of Ages ", a new Spiritual Renaisance for the planet!

Hi Derek, it's Gypsy. I've included a cassette tape of my new songs " Magick " and " Medicine Song " for your listening pleasure! These were newly recorded in a 16 track studio this year and represent the first two tunes on my album-in-the-making. Please enjoy both. Richard drew a beautiful copy of the talisman we received at your apartment from the spirits preciding. It hangs in our front hallway next to a print of a magickal oil painting entitled " Unio Mystica " by a modern flemish artist named Johfra Bosschart. This painting depicts in graphic images the redemption of Spirit from matter in Qabalistic symbology through the formula of the Pentagrammaton.

PET1 1737C



On the other side of the print hangs another talisman Richard drew from the numbers on a coin Alex found for us while we were walking together in St. Leonards last summer. Both talismans are prominently visible at the entrance of our home.

Well, that's what we've been up to. How are you Derek? We're surmising from the current trends in the New Age Community your own work may be accelerating. Being Humans like yourself, all we can offer in the way of encouragement is " Perserverance furthers ", keep up the good work!, and Hold on and enjoy the ride! "

Love is the law, love under will.

Bright Blessings, Senmut,

Richard & Gypsy
