

The work comes under the aegis of NOVA, a cosmic society devoted to the salvation of the human race and it's further evolution.

I enclose extracts from the notes of the Temple which deal with current political situations upon Earth. Very dismal reading! These extracts I am attempting to circulate as widely as possible with very limited finance. I have yet to find a politician ready to collaborate with me but there have been many who have taken notice.

I am hoping that among your investigators there are some who will be able to help in a constructive way. At any rate, you are in a better position than I am to deliver information to interested people.

I look forward to your reply.

Yours faithfully,

Derek L.E.Taylor.
