PLANETARY OILS.

Made from planetary incenses, steeped for 21 days in pure olive oil, then strained.

Sun Incense: Equal parts of Frankincense and Myrrh.

Moon Incense: Equal parts of Wormwood and Camphor.

Mercury Incense: Equal parts Gum Mastic and Cinnamon.

Venus Incense: Equal parts Lignum Aloes, and Rose Petals.

Mars Incense: 4 pts Dragons Blood

4 parts Rue.

1 part each Ginger, and Peppercorns.

Pinch Sulphur.

Powdered Lodestone.

Earth or Pan Incense: 3 parts Juniper Wood.

2 parts Cypress Leaves.

2 parts Myrrh.

1 part each Patchouli and Sage.

$\frac{1}{2}$ part Orris Root.

My own personal incense that I have not used since 1963. My first Frankincense was a disaster (or so it was called) I wonder why? This one is the result of the error.

1oz finely powdered Frankincense.

$\frac{1}{2}$ oz. finely powdered Benzoin.

$\frac{1}{2}$ oz. finely powdered Orris Root.

2 tablespoons ground Cascarilla Bark.

1 tablespoon ground Cinnamon.

4 drops oil of Sandlewood.

$\frac{1}{2}$ tablespoon finely powdered Rose Petals.

$\frac{1}{4}$ teaspoon each of powdered Cloves, Fennel Seed, and ground Coriander.

4 drops each of Oil of Rose, Oil of Frankincense, Oil of

Lavender and Oil of Lemon.

1 tablespoon Potassium Nitrate (Saltpetre)

Store for 6 months, stirring occasionally. Reason for storage is to let all the individual aromas blend to form a major aromatic.
