usually inscribed with symbols as the athame.

Always upon the Witch's pentacle is engraved a pentagram, the symbol of interaction of all the four elements. The pentacle is cabbalistically attributed to the sephiroth of Malkuth.

---

Making a pentacle

Pentacles can be made of copper or silver or of any metal according to their planetary designs, that you are operating with.
It can be anything from six to nine inches in diameter and about an ⅛ inch thick.

Friday at Sunset take disc to secluded spot. If you can,find a cave to work in or a hole in the ground.

Bury it beneath the earth. Mark spot so you can find it again. Recite this Rune after you have finished burying it.

Cold you are and green you will be,
The Power of Earth will come to me.
(This can also be used as a death spell)

This is a reference to the changing colour of the disc from the coppery gold to the green as it starts to corrode liberating pure copper into the Earth as it corrodes and soaking up the Earth's megnetic forces.

Six days later return to the same spot at the same time and dig up the pentacle with your hands reciting

"Lady of Darkness, Lady of Earth,
Give me my talisman give to it birth,
Give with it your blessings that always I may,
Use it with power, this I do pray"
