with the electric blue light streaming towards you

"Lady of Earth your child you see,
I call out in need send power to me"

To project a beam of psychic energy away from it reverse the pentacle so that the spirit point faces away from you with the horns towards you and call out the following . Chant three times using the point of the pentagram to sight the energy towards it destination. (Like sending a thunderbolt or a rocket).

"By power of Earth I send this spell
O Queen of Night, Queen of Hell.
This is my will so shall it be,
I send the power it comes from me."

The pentacle can also be used to draw money towards you. Caste a circle, roll the pentacle round its boundary, ensure the pentacle is always held upright, making sure you don't drop it, at the same time chanting -

"Orbiting Jupiter trine the sun,
Bring money to me on the run"

Burn frankincense, use a central green candle, its the next descent into matter of the Cabalistic Tree of Life from Jupiter to Venus, then it makes a perfect triangle because the sun is trine the sun you've got Tiphereth and Gedulah to Netzah so you're trining it.

Start the rolling in the West. If you drop the pentacle it won't work, don't drop the pentacle or you will lose money.
