Alan de Wate's questions.

March April May June July August are formative months for Alan de wate. How he succeeds with them is entirely with him. I feel from the vibrations around him that the move into that office .....

DAIAADRA.

Greetings, salutations Derek Lionel Elliott Taylor....

I am Daiaadra and I have been brought to you with greetings from Zara Pera Farria , from the Ganymede Cup Bearers. The office is only a stepping stone to a new future. If he will work hard and change the place of his society and the people that he mixes social days with then he will succeed. He must ignore terminology...he must update himself. he is small and out of date. he must think up new schemes and be strong. He is weak. He is easily led and he is wife bitten. I do not understand that ....henpecked...Now you have questions please.

Yes Daiaadra. The first one is :- How do I stand with regard to my business future?.

Already I have answered - if he is strong and steadfast and true to his work withhis partner and is making certain of bank deposits then his account will grow and flourish. All business is with him. It is his name. Itis his agency. How can anybody help him if he does not help himself. I say help himself. I donot mean help himself from his financial recources until he has made finance to survive.

Is Mr. Lawrence conning me?

No. No ..The man de Wate is too suspicious because he suffers with his own guilt because he does wrong mind things. He believes that other people behave the same. I understand thatin your world all people are different and some are corrupt and somr are incorruptible. There are many between. Mr. Lawrence is good.

His third question:- Is my wife having an affair?

No. She has a friendly loving ...I do not understand...relationships with people but he, the husband expects her to sit alone and not speak or to be charming and attractive. It grieves us to see you looking at

each other with your possession. Yet the very possession that he has was the freedom the freedom that he saw in her to love. He must allow her the privelege to be charming. He can through her become very rich. He should take her out of the residence and make a display of her. She is good for his business, yet she loves him.

Do I need help with regard to business problems?

O yes . Only if he is honest. Already I have answered that question...that he can make his business strong..March April May June July and August are the times that I can send that ..ifhe is true and sincere I will send and he will come the Kephera Scarab beetle...will come to help him. If he fails he will never ever have business again. He willbe a failure.It is time granted - time limited yet if he works it shall come.

His sixth question:- "as my wife conned me in the past?

Received ..received....confidence? ..Taken his confidence away? In your world you can only think of money. No,he does not do enough to hold her. He is fore-granting. If he thinks that she has been confidant then he has given her power to be stronger than he and yet he fed that to her. If he gave then that was free. No she received with love and confidence...if that is what your world meaning of conned is. The man wants his bottom smacking.

His seventh question:- Do I have anybody to watch for?

No. We are clearing the way by our the date times that we have given and by the entrance of the Scarab....he will see it and he will understand that we help. If he fails then that failure is with him and not another.

In his eigth question he asks.I intend doing business with Arab Tara Naman. what do you think?

That is most excellent. If he the man Alan, can improve his social manner and rise above himself.Yes the contect is most excellent. There is a point of being that can bring him if he aspires to his world commercial monetary affairs. There is property rising everywhere if he can grasp. It is excellent. .if only he can have the strength to aspire above himself and to reach out longer than himself then, yes very successful for him.
